

Description

Crest Paint Stripper 109 is a neutral, thickened, heavy-duty paint remover that effectively strips paint and similar organic coatings from metal surfaces. It is designed primarily for removal of epoxy, urethane and other difficult to remove coatings.

- » **Evaporation:** Stripper 109 has a self-forming surface film which retards evaporation and extends the working life.
- » **Cling:** This product is excellent on all surfaces, vertical or horizontal.
- » **Appearance:** Crest Stripper 109 is a yellow thixotropic liquid.
- » **Corrosion:** This product is non-corrosive to aluminum, magnesium, cadmium, anodized aluminum and ferrous metals. The stripper will not cause hydrogen embrittlement of high strength steel.

Method of Use

Application Methods

- » Spray
- » Brush

Concentration

- » Use product as received.

Equipment

- » Spray on the stripper with a non-atomizing sprayer. The stripper may also be applied by brush. When a brush is used, daub to give a thick coating.

Stripping

- » Allow sufficient dwell time for thorough loosening or blistering of the paint.

Rinsing

- » Crest Stripper 109 and paint residues may be rinsed with high pressure, high volume cold water or with a steam cleaning machine. Slight brushing during the rinse operation insures complete removal of all residues.

Caution

This product contains chlorinated solvents and phenolic bodies. Refer to product labels and Safety Data Sheets for precautionary and handling information.
